EXPECTED MODULE SHIPMENTS⁽¹⁾ (GW_{DC}): SYSTEMS + THIRD-PARTY MODULE

The above table presents the actual module shipments for 2018 through Jun 30, 2018, new module volume bookings through Jul 26, 2018, and the expected module shipments beyond Jul 26, 2018. A module is considered to be shipped when it leaves one of our manufacturing plants. Expected module shipments do not have a direct correlation to expected revenues as expected module shipments do not represent total systems revenues and do not consider the timing of when all revenue recognition criteria are met, including timing of module installation.

- (1) Expected Module Shipments includes systems projects and contracted 3rd party module-only sales. Systems projects include (a) under sales agreement, (b) executed PPA not under sales agreement and (c) no PPA and not under sales agreement, but electricity to be sold on an open contract basis.
- (2) Reflects new bookings from Jul 1, 2018 to Jul 26, 2018.
- (3) Balance includes remaining shipment volumes as of Jun 30, 2018 and bookings through Jul 26, 2018. Shipments from Jul 1 to Jul 26, 2018 not deducted.
