**First Solar, Inc. Announces First Quarter 2018 Financial Results**

- Net sales of \$567 million
- GAAP EPS of \$0.78
- Cash and marketable securities of \$2.9 billion, net cash of \$2.4 billion
- YTD net bookings of 3.3GW<sub>DC</sub>; 2.0GW<sub>DC</sub> booked since prior earnings call
- Series 6 module production commenced in early April

TEMPE, Ariz., April 26, 2018 – First Solar, Inc. (Nasdaq: FSLR) today announced financial results for the first quarter 2018. Net sales for the first quarter were \$567 million, an increase of \$228 million from the prior quarter due to the sale of international projects in India and Japan and the sale of the Rosamond project in the U.S., partially offset by lower third-party module sales.

The Company reported first quarter GAAP earnings per share (“EPS”) of \$0.78, compared to a GAAP loss per share of \$(4.14) in the fourth quarter of 2017. The previous quarter non-GAAP loss per share, adjusted for restructuring and asset impairment charges and the impact of U.S. tax reform, was \$(0.25). Net income increased compared to the prior quarter primarily as a result of lower tax expense, improved net sales, the mix of higher gross profit projects and higher other income.

Cash and marketable securities at the end of the first quarter decreased slightly to \$2.9 billion from \$3.0 billion at the end of the fourth quarter. The decrease primarily resulted from capital expenditures to support the Series 6 manufacturing ramp, partially offset by a reimbursement of overfunded amounts from our module collection and recycling trust.

“Our first quarter earnings and continued bookings momentum provide a positive start to the year,” said Mark Widmar, CEO of First Solar. “Our earnings for the quarter were supported by the sale of both domestic and international projects, combined with efficient management of core operating expenses. Customer demand for our Series 6 product continues to be strong as evidenced by our year-to-date net bookings of 3.3GW<sub>DC</sub>. We also achieved significant technology milestones this month with the start of Series 6 production in Ohio and the first commercial module shipments to systems projects. We remain focused on leveraging the advantages of our differentiated technology and applying our disciplined operating approach to achieve our near-term and long-term priorities.”

The Company lowered its 2018 net cash guidance by \$100 million primarily as a result of higher capital expenditures for additional Series 6 capacity.

2018 GAAP Guidance	Prior	Current
Net Sales	\$2.45B to \$2.65B	Unchanged
Gross Margin % <sup>1</sup>	21.5% to 22.5%	Unchanged
Operating Expenses <sup>2</sup>	\$400M to \$410M	Unchanged
Operating Income	\$130M to \$180M	Unchanged
Earnings per Share	\$1.50 to \$1.90	Unchanged
Net Cash Balance <sup>3</sup>	\$2.1B to \$2.3B	\$2.0B to \$2.2B
Operating Cash Flow	\$100M to \$200M	\$0 to \$100M
Capital Expenditures	\$700M to \$800M	\$850M to \$950M
Shipments	2.9GW to 3.0GW	Unchanged

1. Includes approximately \$60 million of ramp penalty costs
2. Includes approximately \$120 million of production start-up expense
3. Defined as cash and marketable securities less expected debt at the end of 2018

For a reconciliation of the non-GAAP measure presented above to the corresponding measure presented in accordance with generally accepted accounting principles in the United States (“GAAP”), see the tables below.

## Non-GAAP Financial Measures

In this release, we provide non-GAAP earnings per share for the three months ended December 31, 2017. We have included this non-GAAP financial measure to adjust for (i) restructuring, asset impairment and related charges primarily associated with the transition from Series 4 to Series 6 production, (ii) the tax effect associated with these items and (iii) the tax effect associated with U.S. tax reform. We believe non-GAAP earnings per share, when taken together with corresponding GAAP financial measure, is relevant and useful information to our investors because it provides them with additional information in assessing our financial operating results. Our management uses this non-GAAP financial measure in evaluating our operating performance. However, this measure has limitations, including that it excludes the effect of certain changes to our assets and liabilities and certain amounts that we may ultimately have to pay in cash. Accordingly, this non-GAAP financial measure should be considered in addition to, and not as a substitute for, or superior to earnings per share prepared in accordance with GAAP. The following is the reconciliation of earnings per share prepared in accordance with GAAP to non-GAAP earnings per share for the period presented (in millions, except per share amounts):

	<b>Three Months Ended December 31, 2017</b>
Net loss	\$ (432.5)
Restructuring and asset impairments	(1.9)
Tax effect of restructuring and asset impairments*	0.2
Tax effect of U.S. tax reform	\$ 408.1
Non-GAAP net loss	<u>\$ (26.1)</u>
Weighted-average number of shares used for diluted earnings per share	104.4
GAAP loss per share	\$ (4.14)
Non-GAAP loss per share	\$ (0.25)

\* Restructuring treated as a non-discrete item for tax purposes and reflected in the effective tax rate over the duration of 2017.
